

PACKAGING SOLUTION WITH INNOVATION

Leiwest Pak

Guangzhou Headquarter

Machine Manufacture Center

Chongqing Factory

Pack Mat Manufacture Center

Since 1999

Focus

Over **500** Machines
Serving in the market

21 Years of
Experience

Aseptic Carton Package Filling Line

Standard equipment for Carton Packaging. Adoptable for various liquid products.

Downstream upgrade Project

Customized equipment for clients in order to low down the manpower needed in the production line.

Research & Development

1999

The 1st Aseptic
Packaging
Material Made
in China

2006

The 1st Aseptic
Filling Machine
Made in China

2012

The 1st
Upgraded
model for
7500pph

2015

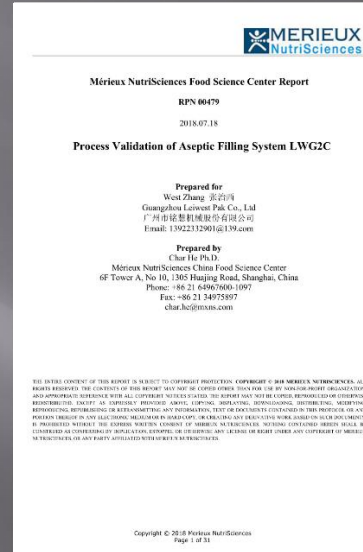

The 1st
Flexible
Aseptic Filling
Machine
Made in China

Qualification

Certified:

- ISO 14001
- ISO 9001: 2015
- HACCP Certificate
- FSC Certificate
- CE Certificate
- CSA Certificate
- FDA Certificate
- Aseptic Validation Report from MERIEUX

The Aseptic System has met the minimum log reduction at 6 and average at 7

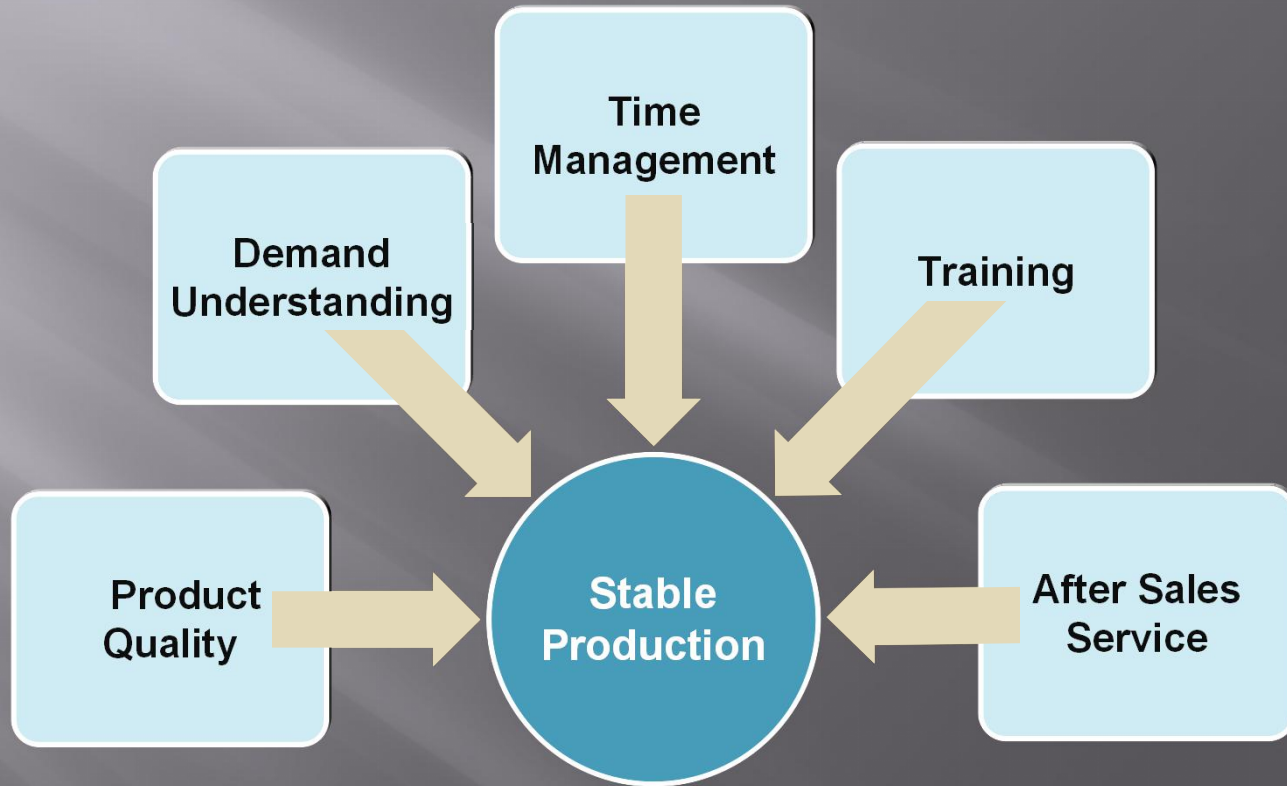

KNOW-HOW

Drafter of **Chinese National Standard** of Aseptic Filling Machine

Value Delivery

Suitable Products

Dairy

- Pure Milk
- Flavor Milk

Juice

- Fresh Juice
- Concentrate Juice

Tea

- Tea Drinks

Coconut Drinks

- Coconut Water
- Coconut Milk

Coffee

Liquor

Oil

Main Products

Model	Capacity	Main Function	100ml	125ml	160ml	200ml	250ml	500ml	600ml	1000ml
G2C	7,500pph	Aseptic	Base	Slim	Slim	Slim/Base	Slim/Base			
G2J	7,500pph	Non-Aseptic	Base			Slim				
G2A	7,500pph	Aseptic		Slim	Slim	Slim/Base/ Prisma/Moon	Slim/Base/ Prisma/Moon			
G6CF	9,000pph	Quick Change		Base	Slim	Slim/Base/ Prisma/Moon	Slim/Base/ Prisma/Moon			
G6F	6,000pph	Quick Change						Base	Prisma	Slim/Base /Prisma
T2	9,000pph		√	√	√	√	√			
T3	24,000pph			√	√	√	√			
TG1	8,000pph					√	√		√	√

G2C Model Aseptic Filling Machine

- Sinking packing material feed mode,
- LWPAS-2 paper automatic splicer,
- LWSAS-2 PPP strip automatic splicer,
- SA and LS IH heater,
- LWAS-3 sterile system,
- LWCS-2 design correction unit,
- LWFS-2 filling system,
- LWOP Intelligent controller.

G2A Model Aseptic Filling Machine

- Sinking packing material feed mode,
- LWPAS-2 paper automatic splicer,
- LWSAS-2 PPP strip automatic splicer,
- SA and LS IH heater,
- LWAS-3 sterile system,
- LWCS-2 design correction unit,
- LWFS-2 filling system,
- LWOP Intelligent controller.
- Turntable final folder.

G2J Model Filling Machine

- Sinking packing material feed mode,
- LWPAS-2 paper automatic splicer,
- LWSAS-2 PPP strip automatic splicer,
- SA and LS IH heater,
- LWCS-2 design correction unit,
- LWFS-2 filling system,
- LWOP Intelligent controller.
- Head space system.

G6CF Model Aseptic Filling Machine

- Flexible design, quick change package type, 30 minutes can replace the same section of different capacity package type.
- Fully servo drive without cam, reduce a large number of spare parts, decrease maintenance costs and maintenance is very easy.
- Sinking packing material feed mode,
- LWPAS-2 paper automatic splicer,
- LWSAS-2 PPP strip automatic splicer,
- SA and LS IH heater,
- LWAS-3 sterile system,
- LWCS-2 design correction unit,
- LWFS-2 filling system,
- LWOP Intelligent controller.
- Turntable final folder.

G6F Model Aseptic Filling Machine

- Flexible design, quick change package type, 30 minutes can replace the same section of different capacity package type.
- Fully servo drive without cam, reduce a large number of spare parts, decrease maintenance costs and maintenance is very easy.
- Sinking packing material feed mode,
- LWPAS-2 paper automatic splicer,
- LWSAS-2 PPP strip automatic splicer,
- SA and LS IH heater,
- LWAS-3 sterile system,
- LWCS-2 design correction unit,
- LWFS-2 filling system,
- LWOP Intelligent controller.
- Turntable final folder.
